Spring Clips

XL's range of spring clips are second to none. They are manufactured from high grade spring steel and passivated to resist rust. Although all sizes are stocked the two most common sizes are available ex stock in large quantities. Ask your distributor for bulk prices.

Size of clip	For tube size	Box Quantity
20mm	1"	use on side vents
25mm	30mm	use on side vents
30mm	35mm	1375
38mm	40mm	960
45mm	50mm	620
55mm	60mm	320

Quick Release Tape

XL's PullEmOff quick release tape is manufactured from virgin 600 micron PE coated fabric making it immensely strong. As well as making the removal of clips quick and easy it also cushions and protects the polythene from the sharp edges of the clips. In addition its White Colour reflects light and reduces heat so that the polythene is kept cooler and lasts longer than under a coloured tape. Ask your distributor for prices.

Width	Length
125mm	50m

SoftEdge Truss Support Tape

SoftEdge truss support tape for table top strawberry systems can be manufactured to any width, subject to quantity. Suitable for any make of table top system XL's support tape is slit down to size using a unique slitting process that produces a strong but soft edge so that fruit, leaf stems and truss stems are not injured or damaged by sharp edges. Minimal stretch on fixing but once stretched it doesn't stretch any further. Price is per roll but they are packaged in outers of 10. Because of the normally large volumes sold transport is at cost. Ask your distributor for prices.
